EXPERIENCE

Wiztech Automation Solutions — Frontend Engineering Intern

Jun 2025 – Jul 2025

Chennai, Tamil Nadu, India

- Built reusable React.js components and integrated REST APIs to deliver responsive production-grade UI features in an Agile environment.

Heavy Vehicles Factory (AVNL), Avadi — Software Engineering Intern

Jun 2024 – Jul 2024

Chennai, Tamil Nadu, India

- Supported REST API integration, automated application testing, and deployment pipelines across development and staging environments, improving release reliability.

PROJECTS

Heliix — Federated Social Networking Platform | heliix.pages.dev

Nov 2025 – Present

FastAPI, React (Vite), GCP, Supabase, TypeScript, ActivityPub

- Built a decentralized ActivityPub-based social platform enabling cross-instance federation, signed server communication, distributed identity management, and scalable RESTful backend services deployed on GCP.

Chedii-AI — AI-Powered Crop Disease Detection System

Feb 2026 – Present

FastAPI, React, Microsoft Azure, Azure AI Custom Vision, Azure AI Search

- Built and deployed a full-stack AI system on Microsoft Azure for real-time crop disease detection and automated treatment recommendation using computer vision and cloud-native REST APIs.

CertiChain — Decentralized Certificate Verification Platform

Jun – Oct 2025

Flutter, Dart, Supabase, Solana Blockchain, Pinata IPFS

- Built a tamper-proof certificate issuance and verification system on Solana and IPFS with role-based access control for students, issuers, and verifiers using cryptographic hash anchoring.
